Description

The model PRC 320 is a rail coin sorter that can count and sort up to eight coin denominations. It utilises the very latest (foreign) coin detection system Coinsure Adaptive®. The sorting is done corresponding to the coin diameter. It has a large inspection tray to allow the coins to be cleaned before entry into the hopper. Output is to a single drawer or bag or coin roll tube (optional) per denomination. Operator ID can also be registered on any printout or data transfer.
